

The background image shows a large, white mobile water treatment unit. A worker wearing a hard hat and safety harness is standing on a lift platform, working on the top of the unit. The unit has various pipes, valves, and a large 'W' logo. The scene is set outdoors, and the overall tone is industrial and professional.

WESTECH[®]

 SWIRE WATER

Mobile Rental Systems For Water and Wastewater Treatment

Battle-tested technology. Proven processes.
Flexible contracts. Whatever the challenge,
WesTech keeps you running.

Keep running. Start here: **1-801-265-1000.**

Complete, Self-Contained Mobile Systems

At WesTech we design, build, and operate, which means we can provide mobile solutions that cover every detail, including:

- Electrical
- Piping
- Installation
- Asset Management
- Plant Operations

Challenges We Solve:

- **Interrupted Service**
 - Stay online and protect against disruptions.
- **Emergencies**
 - Keep water and wastewater treatment running through the unexpected.
- **Construction or Maintenance**
 - Fill the gap while building, replacing, or repairing.
- **Capacity Issues**
 - Add treatment capacity when demand spikes or sources are stressed.
- **Multiple Contaminant Areas**
 - Treat one area, then move on to the next.

Applications Include:

- Ash pond dewater and closure
- Landfill leachate
- Groundwater treatment
- Mine water treatment
- Heavy metals removal
- Wastewater treatment
- Raw water treatment

With more than 400 assets in our mobile fleet,
chances are we have what you need.

Mobile Solutions Delivered Nationwide

Mobile + Temporary Fleet

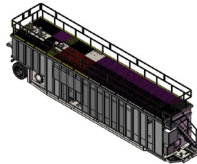

RapiSand™ Ballasted Flocculating Clarifier

Design Flow Rate
1000 gpm

Applications

TSS / turbidity removal
Heavy metals removal
Drinking water

Mobile Clarifier

Design Flow Rate
25-200 gpm

Applications

Sludge thickening
Softening
TSS / turbidity removal
Heavy metals removal

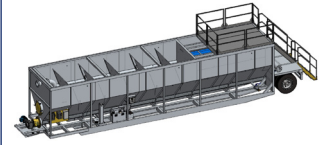

RapidTube Settler Clarifier

Design Flow Rate
250 gpm

Applications

TSS / turbidity removal
Heavy metals removal

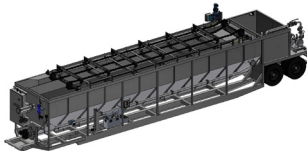

RapidSettler Clarifier

Design Flow Rate
250 gpm

Applications

TSS / turbidity removal
Heavy metals removal

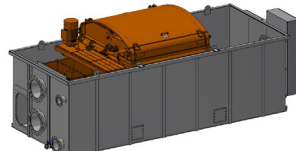

DAF Units

Design Flow Rate
300 gpm

Applications

TSS / turbidity removal
Primary and secondary clarification
WAS concentration

SuperDisc™ Filter

Design Flow Rate
2,000 gpm

Applications

TSS / turbidity removal
Tertiary polishing treatment

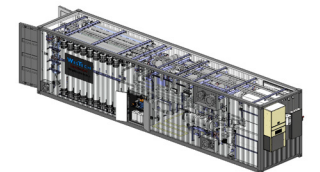

Pressure Filter

Design Flow Rate
750 gpm

Applications

Heavy metals removal
TSS / turbidity removal
Drinking water

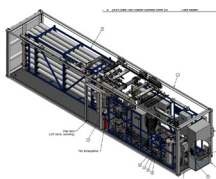

Containerized Ultrafiltration System

Design Flow Rate
1,000 gpm

Applications

TSS / turbidity removal
Drinking water

Containerized Reverse Osmosis System

Design Flow Rate
700 gpm

Applications

TDS removal
Drinking water

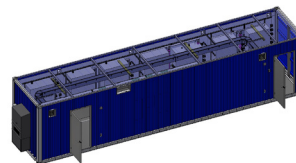

Reaction Tank

Capacity
19,000 gallons

Applications

Retention time
Chemical precipitation and mixing

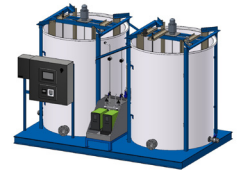

Chem Center

Capacity
6 Chemical feeds

Capabilities

Power distribution
PLC and HMI controls
Secondary containment and safety equipment

Tanks and Accessory Equipment

Applications

Mix tanks
Chemical feed
Pumps
Break / storage tanks

Extraordinary Experience. Trusted Safety. Superior Service.

Fast, flexible, and OSHA-compliant treatment on demand.

With our expertise, customer service, and mobile fleet, you get:

- Setup support
- Smaller footprint
- Quick turnaround
- Reduced downtime
- Flexible contract time
- Installation and operations expertise
- No capital investment

WesTech is your trusted water partner for:

- Proven capabilities
- Customized solutions
- Mobile-ready fleet (400+ and growing)
- 50+ years experience
- On-site experts
- Superior customer service
- Complete service from design to operations
